Contact Hours: 1 hour

### Rules and Routines

Defined rules and routines are important components of educational programming for all students, but particularly for individuals with autism spectrum disorder (ASD), whose learning differences may present challenges in understanding expectations. This module presents strategies for designing and implementing rules and routines to support students with ASD and promote success in school, home, work, and the community.

---

OCALI certifies that every page of this module was visited, that sufficient time was spent on the module to engage the subject, and that the participant completed a pre- and post-assessment as part of the module. In addition, the participant answered the attached questions regarding the module content.
