Contact Hours: 1 hour

Customized Employment

Customized employment is a process for achieving competitive integrated employment or self-employment through a relationship between employee and employer that is personalized to meet the needs of both. It is a universal strategy that benefits many people, including people with disabilities who might not have found success through other employment strategies. Customized employment is not a program, but a set of principles and strategies that seek positive community employment outcomes for people with complex challenges. This module provides detailed information to effectively implement the customized employment process.

OCALI certifies that every page of this module was visited, that sufficient time was spent on the module to engage the subject, and that the participant completed a pre- and post-assessment as part of the module. In addition, the participant answered the attached questions regarding the module content.
